

Tasking Memorandum No. 99-46

Memorandum For Cdrs DCMDs, DCMC CAOs

Subject: Web Site Information Vulnerability Criteria Integrated
Product Team

Date: November 23, 1998

Suspense Date: December 04, 1998

Target Audience: District Commanders, and CAO Commanders

New Information:

- On September 24, 1998, the Deputy Secretary of Defense issued a memorandum on information vulnerability and the World Wide Web. In that memorandum, the Deputy Secretary expressed his concerns about the growing information role and vulnerability of the Web within DOD, and issued interim guidance on what acquisition information and other information should be removed from publicly accessible DOD Web sites. Because of these ongoing OSD actions, the DCMC Internet/Web Site Policy (DLAD 5000.4, Chapter 6.5.1) must undergo revision and updating to provide detailed criteria on what acquisition information should and should not be put up on a publicly accessible DCMC web site.

Tasking:

- We will form a Web Site Information Vulnerability Criteria Integrated Product Team to define draft DCMC criteria for acquisition, program management, and personnel information not releasable on the Internet. This team will be headed by DCMC-AC, with participation by DCMC-0, DCMC-B, two CAO Commanders (one from each District) and one representative from each District's staff. We expect this team to meet only once in early December 1998 in order to provide input to DLA-CI for inclusion into future updates to the DLA policy as well as the update to DCMC policy on the Web.
- **Please** provide names of your participants to Mr. Alex Evan, alex evan@hq.dla.mil no later than November 30, 1998.

Point of Contact: Alex F. Evan, Defense Procurement Systems Office (DCMC-AC), Ph: (703) 767-6326 or DSN 427-6326 E-mail: alex,evan@hq.dla.mil
